HOW MUCH DO I NEED?

In general:
- 7 lbs per square foot for 1 inch depth
- 14 lbs per square foot for 2 inch depth
- 21 lbs per square foot for 3 inch depth

For a fire pit or a fireplace:
- Average fire pits/fireplaces require 100 lbs of glass
- Unique fire pits or fireplaces quantities vary widely, but most use use a 3 inch depth above the burner

For landscaping and garden glass:
- Use 1.5 inch depth minimum, estimating about 10 lbs per square foot of coverage

For terrazzo floors, concrete countertops, or other decorative concrete:
- Use 2-3 lbs per square foot of coverage for roughly 50% coverage
